

RESUME

Name : Ashutosh Kumar Shah

Proposed Position : Full-Stack Developer || Frontend Developer || Backend Developer

Date of Birth : 18-May-2003

Email : shahashutoshkumar57@gmail.com

Phone : 9667606305

LinkedIn : [AshutheCoder](#)

GitHub : [github.com/ashutosh203](#)

Portfolio : [AshuTheCoder_portfolio](#)

Address : Vikas Nagar, Uttam Nagar, New Delhi-110059.

Location : Delhi, India

SUMMARY

Full Stack Web Developer with hands-on experience in building scalable MERN Stack applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing REST APIs, JWT Authentication, Role-Based Access Control, and responsive user interfaces. Passionate about solving real-world problems through clean, maintainable, and efficient code.

TECHNICAL SKILLS

Frontend

- HTML5
- CSS3
- JavaScript (ES6+)
- React.js
- Tailwind CSS
- Redux Toolkit

Backend

Node.js
Express.js

Database

MongoDB
Mongoose

Authentication & Security

JWT Authentication
OTP Verification
Role-Based Access Control

Tools & Platforms

- Git
- GitHub
- Postman
- VS Code
- Render

Concepts

REST APIs
CRUD Operations
Responsive Design
State Management
API Integration

PERSONAL PROJECTS

Job Portal Application (MERN Stack)

Job Tracker: - is a modern Full-Stack Job Portal Application built using React.js, Node.js, Express.js, and MongoDB. The platform connects recruiters and job seekers in a seamless way. Recruiters can create and manage job postings, review applicants, and update application statuses, while candidates can browse jobs, apply for positions, and track their applications.

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, React Hook Form, Axios, Lucide React etc.

Features: -

- Recruiter and Candidate Authentication
- JWT Protected Routes
- Recruiter Dashboard
- Job Posting & Management
- Candidate Job Application System
- Responsive UI Design

Responsibilities

- Designed REST APIs
- Implemented Authentication Flow
- Built Candidate & Recruiter Dashboards
- Integrated MongoDB Database
- Deployed Full Stack Application

Live Demo: <https://ashutosh203.github.io/JobTracker/>

E-Commerce Clothing Website

- I independently designed and developed a full-stack E-Commerce Clothing Website where users can browse products, add items to cart, manage favorites, and place orders.
- I implemented secure authentication, role-based access for Admin and Seller panels, product and inventory management, cart and checkout functionality, and RESTful APIs using React, Node.js, Express, and MongoDB
- I also deployed the application and handled environment configuration for production.

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, React Hook Form, Axios, Lucide React etc.

User Roles & Features

User

- Register & Login
- Browse products
- Add to favourites
- Add to cart
- Update cart quantity
- Remove from cart
- Checkout (Cash on Delivery)
- View cart & total amount

Seller

- Register & Login
- Profile approval by Admin
- Add / Edit / Delete products
- Manage stock
- View own products

Admin

- Login
- Approve / Block sellers
- Block / Unblock products
- View platform statistics

Live Demo: <https://ashutosh203.github.io/ecommerce-frontend/>

Todo List

"I developed a To-Do Application using React.js and Tailwind CSS. The main purpose of this application is to help users manage their daily tasks efficiently. Users can add, edit, delete, and mark tasks as completed."

Technologies Used

- **React.js** – For building the user interface.
- **useState Hook** – For managing component state.
- **useContext Hook** – For sharing data across multiple components without prop drilling.
- **Tailwind CSS** – For creating a modern and responsive UI.
- **Lucide React** – For displaying icons such as Edit and Delete.

Live Demo : <https://ashutosh203.github.io/ToDoList/>

EXPERIENCE

Personal Projects

- Developed and deployed multiple MERN Stack applications.
- Built secure authentication systems using JWT and OTP verification.
- Created responsive and scalable user interfaces.
- Integrated frontend and backend services using REST APIs.

EDUCATION

Full Stack Web Development

Minor in N/A • Dice Academy Institute, Delhi • Tilak Nagar, New Delhi, India • 2024 – 2025 • N/A

- Completed Frontend Development using HTML, CSS, JavaScript, React
- Completed Backend Development using Node.js, Express.js, MongoDB
- Built a Full Stack E-commerce Project with authentication and CRUD features
- Familiar with REST APIs, Git, GitHub

STRENGTHS

- Problem Solving
- Debugging
- Quick Learner
- Team Collaboration
- Clean Code Practices

LANGUAGES

- Hindi
- English
